**SENEC**

# There is a worldwide movement towards electrifying your home.

Globally, Australia has the highest uptake of solar with more than 3 million+ rooftop solar systems installed and 30% of homes with solar.

The SENE.C.360 suite of products and services allows you to utilise your solar energy to provide energy and mobility self-sufficiency. That's the SENE.C Electrifying Lifestyle.

With the complete SENE.C.360 solution, you not only gain financial savings, but energy independence and environmental protection as well.

### 360° Solutions

With SENE.C, you can obtain all the components you need in one place to achieve up to 100% self-sufficiency by utilising:

- SENE.C.Home V3 Hybrid - hybrid battery storage system with integrated solar inverter (20-year extended warranty available)
- SENE.C.EVcharger - Electric Vehicle (EV) charger
- SENE.C.Solar - Solar modules
- SENE.C.Cloud - Cloud virtual energy storage
- SENE.C.App - the heart of our SENE.C.360 eco-system

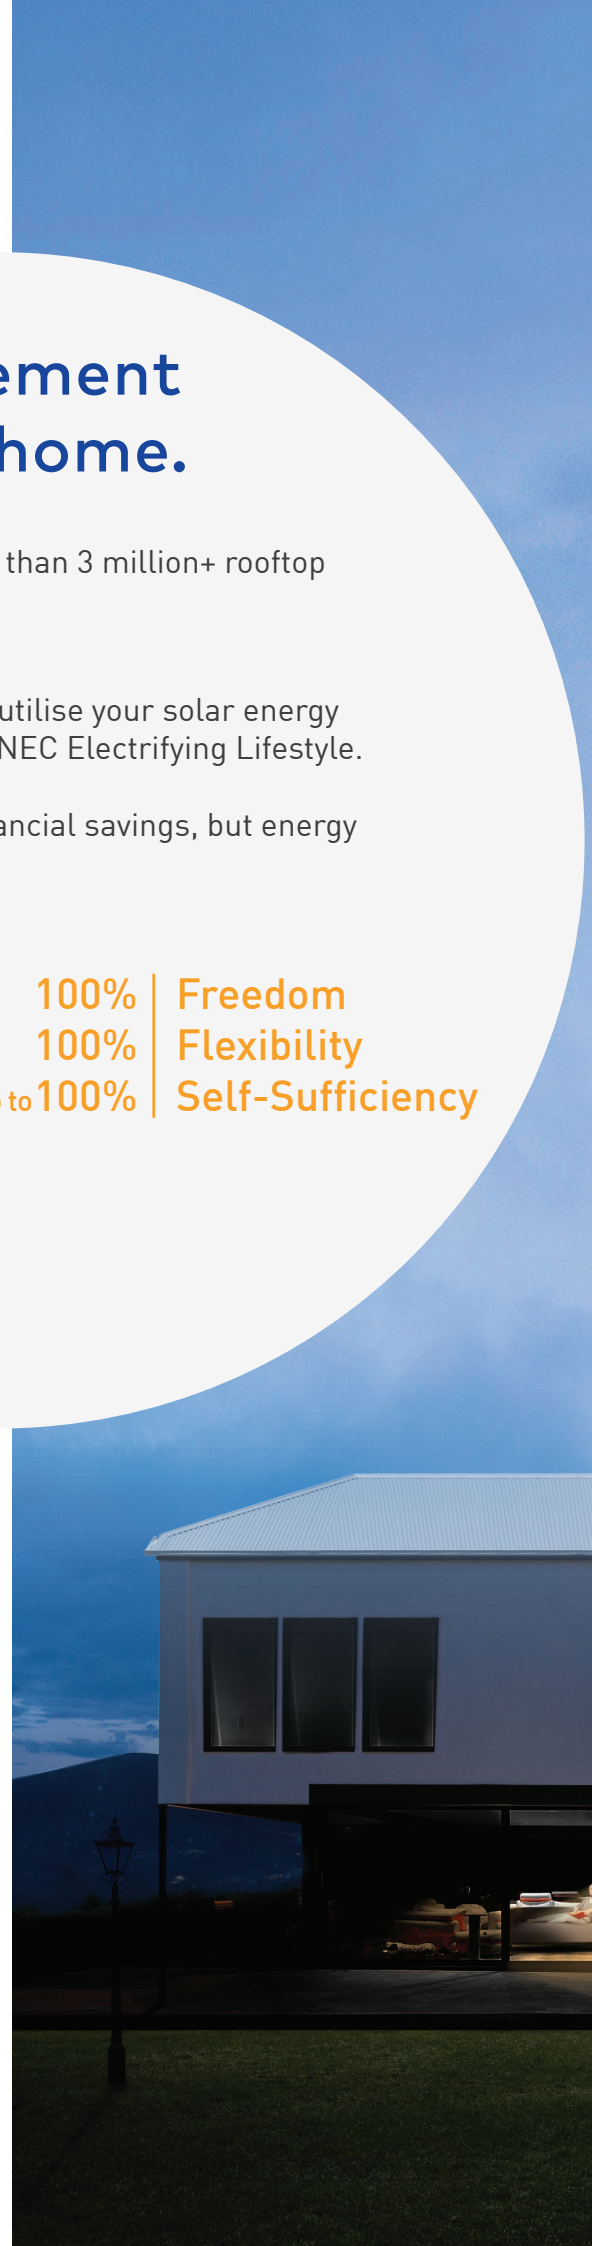

100% | Freedom  
100% | Flexibility  
Up to 100% | Self-Sufficiency

### 360° Integration

All SENE.C products are perfectly integrated with one another using the SENE.C.App. Make the most of your self-generated solar energy, optimising your cost savings to achieve up to 100% self-sufficiency.

### 360° Value Promise

We're on a mission to provide our customers with the best experience possible. We listen, we explore, we support. We act and get results as partners.

  
Home

Store the energy you don't use for later use

  
EVcharger

Power your electric vehicle

  
Cloud

Virtually store up to 100% of your energy

  
Solar

Harness energy from the sun

  
App

The heart of the SENE C.360 eco-system

The Electrifying Lifestyle

# SENEC.Home V3 Hybrid storage system

Use your energy, even at night

100% | German quality  
100% | Safety

## Maximum flexibility

Can be AC or DC coupled. SENE hybrid storage systems can be combined with any PV system, both new and existing. The modular design allows you to increase your storage capacity for when you need to upgrade.

## Maximum Warranty

The battery system has a 20-Year extendable warranty (the first ten years are on us) making it the one of the best warranties available on the market.

## Maximum efficiency

The All-in-1 energy storage system including batteries, solar inverter and integrated control system, ensures the highest levels of performance with 2 x MPPT circuits, a high current rating of 23A Isc and inverter efficiency of 97.4%.

## Maximum simplicity

Everything is simple with our systems: from installation, which can be carried out in a few hours with minimal hassle, to monitoring via the app and remote assistance for your peace of mind.

## Maximum safety

Inbuilt over-voltage and surge protection ensures the safety of both the system and batteries, especially during lightning strikes. The optional back-up system ensures the availability of electricity even in the event of a black-out.

# SENEC.EVcharger

Power your vehicle

100% | Safety  
100% | Intelligence

## Maximum flexibility

The SENE.EVcharger adapts to your needs: single-phase and three-phase connection and different charging powers (7.2 - 22 kW).

## Maximum safety

DC solar protections are integrated as standard in order to guarantee maximum safety.

## Maximum compactness

SENEC.EVcharger is one of the most compact residential Electric Vehicle chargers on the market, without compromising on performance.

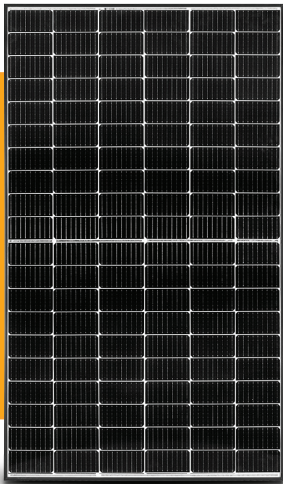

## Maximum intelligence

The interface with the SENE.Home storage system and the SENE.App, makes it possible to activate / deactivate the SENE.EVcharger remotely and choose between Fast Charging and Solar Optimized Charging, which modulates the maximum charging current according to the photovoltaic surplus.

# SENEC.Solar

High performance solar panels

- World leading product warranties
- High performance
- Maximum efficiency

Produce your own energy with SENECS approved range of solar panels from our world leading manufacturers - REC Solar, Trina and Longi.

When you purchase approved SENECSolar panels along with the SENECHome and SENECEVcharger, you gain access to exclusive SENECS offers and advantages. These are only available from SENECS.

# SENEC.Cloud

Your Solar Energy – any time you need it.

- Capitalise upon your exported solar energy
- Make your home up to 100% self-sufficient
- Consume your energy when you need it most

Up to 100% | Self-sufficiency  
100% | Freedom  
100% | Flexibility

SENECS.Cloud is your virtual energy savings account. Your excess self-generated solar energy will be credited to that account. You can flexibly use it any time you need it and draw down from the grid at a 1:1 ratio, up to the limit of your SENECS.Cloud package. You export and import at the same rate.

Available in NSW, VIC, SA and QLD (Energex network).

# The Electrifying Lifestyle

## Testimonials and Awards

**“Our power bill went from \$510 to \$70...  
If you are a high consumer like our family,  
SENEC just makes sense”**

Rosalie Beveridge | Western Australia

**“SENEC fit so well into our home and  
doesn’t take up much space. Got solar  
panels? You need SENEK ASAP!”**

John Edmondson | Western Australia

**“We live in a large 4x3 and the impact our  
SENEC solar battery is having on our power  
bills is significant over and above what we  
receive through REBS”**

Paul Duffy | Western Australia

**“My power bill went from \$700 to \$70.  
WOW! Thanks to the SENEK app I know  
exactly how much power is being produced  
and used at all times. It really is an  
amazing product!”**

Wayne Spilsbury | Western Australia

## Why Choose SENEK

SENEK provides our customer with an electrifying lifestyle. Our lifestyle brand instills peace of mind and confidence.

We are driven to empower people to live with freedom. We act together in partnership and support people to be self-sufficient, green and save money, whilst living sustainably.

Established in 2009, SENEK is a pioneer and market leader. With well over 100,000+ solar battery storage units installed worldwide, we have the proven experience and capability.

We are fully committed to making a difference for our customers with the best possible experience and positive environmental impact.

## High Performance

### A Smart Investment Demands Quality

- You get what you pay for in solar. SENEK only uses superior quality electronic components.
- Award winning German design and engineering.
- One of the leading charge / discharge cycle rates in the industry at 12,000 cycles.
- High performance energy storage systems with long-term reliability.

## Safety and Security

### Your Peace of Mind

- Bankability – SENEK is owned by the giant German energy company EnBW (€20.6B Euro). We're a diversified business with large financial backing.
- An industry leading warranty – 20-years extendable.
- SENEK certified installers – We ensure the highest quality of installation and safety.
- Australian customer service with expert in-house qualified engineers. Fast response time and resolutions.

SENEK  
products  
are the  
smarter  
choice.
